Hi all Dombivlikars, I will soon be relocating to Dombivli East. Since i am a new member, I wish to make new friends here. First thing first, in our new home i wish to have the internet connection. If any one of you know the best internet service providers and their deals and offers, please let me know. BSNL landline or hathway or cablenet or whatever you know. Also let me know if there are some do's and dont's in Dombivli. Cheers..Looking forward to hear more from you all.

Hey I already found the ISP (Hathway Internet)..With 1000 + 10.24% Tax for 4 months with 1 Mbps speed and 4 GB U/DL ..seems more than sufficient...

Alas...Hathway after playing the waiting game said there was no cabling close to our Building and hence they cant provide the internet Connection to me. I collected my advance chequement and returned empty handed. Our home cable service provider SITI cable said they will provide internet called In2Net.... Anyone who knows about this In2Net thing??
